Gonda, Uttar Pradesh - 271204, India

OBJECTIVE

Seeking a challenging position in web development to leverage my expertise in HTML5, CSS, React JS, Node JS, Express JS, MongoDb, Tailwind CSS and JavaScript. Aiming to contribute to innovative projects at the intersection of responsive design and user experience, with a focus on creating visually appealing, user-friendly websites in fields such as blood donation management systems.

EDUCATION

- **Dr. A. P. J. Abdul Kalam Technical University** — *2022 - 2024*
  Master of Computer Application (MCA) — Lucknow, India
- **Siddharth University Kapilvastu, Siddharth Nagar** — *2019 - 2022*
  Bachelor of Computer Application — Balrampur, India

PROJECTS

- **Blood Bank App** [ ]
  Technologies Used: MERN
  ◦ Developed a secure user registration and login system using JWT authentication for protecting user data and ensuring only verified users could access the system.
  ◦ Implemented Socket.io for real-time updates between donors and recipients, achieving instant notifications and status updates for blood availability.

- **Todo App** — *Month Year*
  Technologies Used: Node.js, Express.js, Mongoose, EJS, CSS [ ]
  ◦ Developed a feature-rich To-Do application to manage tasks efficiently, implementing a full-stack solution with the Backend, Database, Front-End
  ◦ **Features:** Enabled users to create, update, and delete tasks, with real-time updates and a user-friendly interface.

SKILLS

- **Programming Languages:** JavaScript (ES6+)
- **Web Technologies:** React.js, Node.js, Express.js, HTML5, CSS3, Tailwind
- **Database Systems:** MongoDB, MySQL, SQL
- **Version Control:** Git, GitHub
- **Other Tools & Technologies:** Postman, VS Code, NPM,
